Plea phra in b low	Please print your personalized inscription in the grid below as you would like it to appear on the plaque. To assist you, common phrases to begin include: 'In tribute to' or 'In memory of' followed by name of the person, group or event. The standard plaque is in brass and is 3" x 5" which will allow for 3 lines of 25 characters each as per the grid below. Remember to specify upper and lower case letters and include spaces and punctuation within the 25 characters per row. Please use appropriate and inoffensive wording and phrases.

	Black Spruce	\$350		Siberian Stone Pine	\$525
Control of the Contro	Semi-Dwarf White Spruce	\$500		Larch	\$350

#### **GUIDELINES**

- 1. All applications for the Commemorative Parks Program must be completed in full on the appropriate form and submitted to the City of Dawson. Applications are not considered complete until payment has been received.
- 2. Applications for the Commemorative Parks Program will be accepted year round, installations will take place between May and September each year. Installation dates cannot be guaranteed due to weather, supply and site rentals.
- 3. Donors may choose a tree, site furnishing or amenity from the program menu to be installed. Requests for other installations may be considered by the City and must meet the departmental standard.
- 4. Recreation staff will make every effort to comply with the wishes of the contributor for the location of all commemorative installations within the selected park.
- 5. Not all sites are suitable for the different species offered through this program. There is a wide variety of species to select from for each park and greenspace.
- 6. The Recreation Department shall maintain all installations in the same manner as other park plantings and furnishings.
- 7. Each applicant will choose the wording for the 3" x 5" brass plaque. Plaques shall not contain wording that is obscene or offensive in nature.
- 8. Plaques will be replaced or repaired if vandalized at no cost to the donor.
- 9. If a planting of a native species fails to thrive, it will be replaced with the same species. Exotic plantings that fail to thrive after one year will be replaced. In some cases a different exotic selection or species may be substituted where deemed appropriate or selection not available.
